## <sup>1</sup> INDIE HIPPIE TRIPPIE **2-5**

Artisanal non-gel nail lacquer alternatives. These are the "it" polishes - an underground world of indie labels, and a whole cult of girls who obsess over them. In this enchanting realm you'll find an array of mysterious head-turning shades that you'll be hard-pressed to find anywhere else! We hunt down potions of multichromes, holographics, duochromes polishes lovingly handmade by artists around the world.

## <sup>2</sup> CALLUS WHISPER **30**

This treatment is meant for the most hard worked yet neglected part of our body. An average person walks a distance of 2000km per year. With this much stress on our feet and the extra balancing acts on our modern almost-footbinding stilettos, some TLC will be well deserved! I'll never not dance again, pampered feet have got the rhythm.

## <sup>3</sup> HOLY GRAIL TREATMENT HANDS/FEET **45/55**

This mollycoddling session gives one the space for slowing things down and being in the moment. Includes - salt soak, sugar scrub, moisture mask, and massage using only natural organic ingredients.

Ginseng helps stimulate circulation, pearl powder illuminate your skin's natural glow, volcanic silt to draw out impurities, and rice water & milk to fade and reduce uneven pigmentation. Skin is left looking exceptionally radiant and luminous.
